

PRI Steering Committee

Meetings:

- Focus on activities and measurable outcomes
- Clear agendas/short meetings
- Continue time for sharing and brainstorming
- Is there value in annual themes with clear goals, objectives?
- Need Chair/Co-Chairs with time and energy to take the lead

Project Ideas:

- Need to keep clear focus on PRI missions and goals
 - Are we poverty reduction or poverty assistance?
- Develop assessment tool to be used at onset of project idea **(Consented)**
 - Should be incubated through PRI and then released (program exit strategy fully developed at onset)?
 - Is project/program one that should continue as PRI responsibility (sustainable funding and volunteer model designed at onset)?
- Need to keep clear focus on PRI missions and goals

Convening/Policy Influence **(Consented)**:

- Advocate for Authentic Voices to be included in all local decision making
- Event/Dialogues-bring together to talk with each other about solutions
- Challenge leaders to articulate positions
- Social movement-polite political pressure-don't need to take a stand, just amplify Authentic Voices

Overall Concerns:

- Sustainable funding model needed
- Lack of staff/coordination
- Don't want to lose PRI identity if we don't run projects/need brand, identity in community
- Communications; who speaks for PRI?
- Need to have opportunities for creative ideas/take risks
