KEY | SHORELINE ARMORING

- More than 50%
- Less than 50%
- Less than 10%
- None

KEY | SHORELINE DEVELOPMENT

- Dense Development
- Moderate Development
- Mixed Development
- Lite Development
- Undeveloped

FEATURES

- Betsie River Watershed
- Wetlands
- Interlochen State Park
- Interlochen Center for the Arts
- Lakes and Water Bodies
- Betsie River
- Streams & Tributaries
- MDOT Roads
- Local Roads

The Green Lake and Duck Lake Shoreline Survey classified general trends for shoreline armoring and upland development. The thicker line corresponds to the level of shoreline armoring and the thinner line within the thicker line corresponds to the level of upland development.

The depiction of the armoring and development lines is based on the GPS track of the survey camera used to document the survey.
