## Q5 Does your community have concerns about the condition of existing infrastructure (dams, bridges, utilities, etc.) being able to withstand a natural hazard event in the future? Please describe.

Answered: 117 Skipped: 3

#	RESPONSES	DATE
1	unknown	11/17/2021 8:47 AM
2	n/a	11/5/2021 9:39 AM
3	Not aware of a shortfall	10/28/2021 11:36 AM
4	Yes, all of my neighbors and family are on the same page with trying to prevent any of our land from any sort of disaster. We recently rebuilt a dam in Walton Junction after seeking help from the DNR for years because of our pond drying up. It has since been saved by the beavers a family friend trapped and released into the pond.	10/27/2021 7:39 PM
5	The GTB Natural Hazard Mitigation Plan covers the risks as a result of a natural hazard event.	10/27/2021 4:21 PM
6	No	10/26/2021 1:58 PM
7	Yes, especially flooding of river and Lake Michigan inlets in our surrounding area.	10/24/2021 4:59 PM
8	The underground pipe system that drains water from homes and streets seems to get worse every year. I feel that the drainage system in place works well for small amounts of rain water but not with all this climate change rain.	10/23/2021 3:27 PM
9	Utilities	10/23/2021 1:04 PM
10	Utilities	10/23/2021 8:41 AM
11	Somewhat	10/22/2021 8:48 PM
12	All the above	10/22/2021 7:00 PM
13	Utilities like people loosing electricity, bridges need to be rebuilt. We need more hospitals because ours are all filling up	10/22/2021 5:29 PM
14	There should be a community building built out at the Antrim County that could be used as a storm shelter for that community.	10/22/2021 3:02 PM
15	Winter storms and being able to keep housing units warm without power and in extreme heats trying to keep them cool.	10/22/2021 2:35 PM
16	No	10/22/2021 2:24 PM
17	Not sure	10/22/2021 2:17 PM
18	We have dams, bridges , etc	10/22/2021 1:36 PM

29	Trees on Roubal Rd with no shoulder on either side of lanes. There is no fire hydrant in the solar neighborhood. Kitigan and Ninatigo Rd.	10/21/2021 6:57 PM
30	No at the moment	10/21/2021 2:43 PM
31	Yes, we've seen these issues already. In the summer of 2021, a section of Alden Highway at Finch Creek washed out completely because culverts at the creek failed during a severe thunderstorm. This occurred on a main road and prevented normal traffic flow as well as first responders. Undersized culverts and aging dams are risks to the community as are aging bridges or other municipal infrastructures.	10/21/2021 12:50 PM
32	Yes, Belanger (sp?) bridge - flooding potential, utility continuance during heavy ice and snow events/tornados	10/21/2021 12:09 PM
33	Yes bridge and natural disasters	10/21/2021 11:26 AM
34	I don't know . I would assume they have them in place.	10/21/2021 9:00 AM
35	N/A	10/20/2021 6:02 PM

37	Unknown	10/20/2021 11:58 AM
38	Whether is always different here.	10/20/2021 7:40 AM
39	From my perspective, the only large hazard I see is the dangers to our waters due to the greed of large corporations, and it is not a natural hazard event. We, as a people have been able to withstand "natural" hazard, it is the "unnatural" hazards which we will have to learn to withstand. Our natural resources is where our lives depend on, and they are being destroyed by "Big Business" greed.	10/19/2021 3:58 PM
40	No	10/19/2021 3:18 PM

24	Yeah	10/22/2021 12:35 PM
25	I would think, you fukn tard	10/22/2021 12:32 PM
26	I don't know	10/22/2021 12:30 PM

Grand Traverse Band of Ottawa and Chippewa Indians Hazard Mitigation Community Survey

27	Not sure	10/22/2021 12:29 PM
28	Renewable energy	10/22/2021 12:27 PM
29	Street drains are clogged with leave.	10/21/2021 6:57 PM
30	I hope that they would upgrade	10/21/2021 2:43 PM
31	Yes. Roads and culverts may need to be repaired, as well as electrical grid and other power supplies after severe storms occur. Upgraded infrastructure or renewable energy supplies that offer backup power during grid failure are important to consider. We should shift stormwater management to be more forward focused on an increasing number severe storms such as 1000 year flood events in mind rather than 100 year events. We should do everything we can to INCREASE the number of functioning wetlands and focus on wetland and riparian restoration and connectivity to help absorb the effects of severe storms and reduce erosion, runoff and pollution.	10/21/2021 12:50 PM
32	Fiber replacement of above ground lines, Cell tower improvements	10/21/2021 12:09 PM
33	Unsure	10/21/2021 11:26 AM
34	I'm not sure where my community stands on this .	10/21/2021 9:00 AM
35	Renewable energy and internet/cellular	10/20/2021 6:02 PM
36	No	10/20/2021 4:15 PM
37	Na	10/20/2021 11:58 AM
38	Renewable energy.	10/20/2021 7:40 AM
39	As a community we have come to depend on technology and health wise the renewable energy and stormwater management are an important part of our comfort.	10/19/2021 3:58 PM
40	Maybe	10/19/2021 3:18 PM
41	Yes, the Tribe should explore developing renewable energy objectives into its long term strategy, especially as a back up in case of a natural disaster or something along those lines, installing elements into existing infrastructure, and should have the best in broadband available on the reservation land.	10/19/2021 11:57 AM
42	I am not sure what the community thinks, I do not have a concern. Leelanau county has plenty of money to fix things or upgrade infrastructure. 2nd richest county in Michigan.	10/19/2021 11:13 AM
43	Yes, newaygo county got larger power towers to run lines above the trees. Renewable energy in the form of solar, wind, or wave energy is not a bad idea. It's nice having dead zones with no cell service here, I would like that to continue or even get larger dead zones with no internet or cellular service, we don't need those services everywhere	10/19/2021 10:12 AM
44	Internet and cellular access is vital and impacted by power outages	10/18/2021 8:44 PM
45	N/A	10/18/2021 6:45 PM
46	Renewable energy	10/18/2021 4:32 PM
47	Should have generator's and renewable energy (solar, wind, geothermal) for each Tribal community in our service area.	10/18/2021 4:28 PM
48	Yes, all of the above	10/18/2021 4:27 PM
49	It would be a great benefit to the community to have all Rental and Elder housing connected to the natural gas lines with a back-up generator, in case of winter storm electrical outages. It would also be beneficial to GTB Citizens who don't rent from GTB, but who own their own homes - to have help in funding such generators for their homes to be connected to the natural gas lines. Funding solar energy would be beneficial, as well. Emergency radios would be helpful too.	10/18/2021 4:20 PM
50	no	10/18/2021 3:59 PM
51	Yes, keeping technology available during storms.	10/18/2021 2:55 PM
52	Affordable	10/18/2021 2:38 PM

## Grand Traverse Band of Ottawa and Chippewa Indians Hazard Mitigation Community Survey

26	I wouldn't know.i think what they tell us is a lie.	10/22/2021 12:30 PM
27	No	10/22/2021 12:29 PM
28	Yes	10/22/2021 12:27 PM
29	Dying trees.	10/21/2021 6:57 PM
30	No	10/21/2021 2:43 PM
31	Yes. Species ranges are changing as a result of climate change (fewer cold weather dependent species, southern species moving north). The frequency of natural disturbance (wind, severe weather) is increasing, which adds stress to the local ecosystems. Summers are warmer which adds stress to human health (and other species). Indoor air conditioning is relatively rare here but is becoming more needed with hotter summers. Additionally, western wildfires [climate change] are negatively impacting air quality in the Great Lakes region.	10/21/2021 12:50 PM
32	Unknown = White fish are being bruised by Lake Trout per Tribal Fishing Community comments - Lake Trout are territorial - so something happened to place both species within close proximity to one another - could be water temperature related.	10/21/2021 12:09 PM
33	No	10/21/2021 11:26 AM
34	No	10/21/2021 9:00 AM
35	Drought and coronavirus pandemic issues	10/20/2021 6:02 PM
36	No	10/20/2021 4:15 PM
37	Colder winters	10/20/2021 11:58 AM
38	Always worried about this	10/20/2021 7:40 AM
39	Many worries about our health and environment is being caused by the denial of large corporations that they are endangering the natural resources, which in turn causes climate change.	10/19/2021 3:58 PM
40	No	10/19/2021 3:18 PM
41	Yes, I believe the fishing habitats, types of fish in Great lakes and amounts of fish have changed due to changes in the climate. The water clarity seems to change year after year and seems much clearer in lake MI. It seems warmer temperatures also are effecting the supplies of wild edible mushrooms and herbs as well.	10/19/2021 11:57 AM
42	The Rice beds are depleting. Not sure the cause, maybe climate change.	10/19/2021 11:13 AM
43	Not really climate change caused for sure, but invasive species coming in and destroying what was here thirty years ago has had an impact (emerald ash borer, zebra and quagga mussels, and probably dozens of others). Some say climate change is amplifying these species ability to alter our ecosystem, I tend to believe it.	10/19/2021 10:12 AM
44	No	10/19/2021 10:08 AM
45	Weather changes have impacted the environment and caused power outages and had negative consequences for agriculture.	10/18/2021 8:44 PM
46	Super hot i. Summer, causes AC to run non stop and hike of electric bills from companies	10/18/2021 6:45 PM
47	Not sure	10/18/2021 4:32 PM
48	Whitefish decline, trees dying from invasive insects	10/18/2021 4:28 PM
49	Erosion of lakeshore	10/18/2021 4:27 PM
50	Although we all should do our part in helping to reduce our carbon footprint on Mother Earth; climate change is a naturally occurring phenomenon and is going to happen with or without humans actions or interventions. Mother Earth has evolved through several Ice Ages. No - I don't feel there have been any negative impacts on public health and/or natural environments of our community that can be attributed to climate change. The only public health issues have been those 'created' by man and inflicted upon the Indigenous Peoples (smallpox) and today - nCoVid-19 (lab-created), upon all.	10/18/2021 4:20 PM

Grand Traverse Band of Ottawa and Chippewa Indians Hazard Mitigation Community Survey

51	no	10/18/2021 3:59 PM
52	Erosion is a very serious problem caused by rising water due to climate change	10/18/2021 2:55 PM
53	God is in control	10/18/2021 2:38 PM
54	The natural environment of our Fishing and hunting our negatively contributed by climate change because of the oil greed	10/18/2021 2:34 PM
55	yes, climate changes impacts our everything everyday it gets worse n worse	10/18/2021 2:17 PM
56	Yes	10/18/2021 2:05 PM
57	Yes, late heat causing loss of agricultural crop and disease issues. Lack of cold winters killing off pest insects in both agricultural and forestry species	10/18/2021 2:01 PM
58	Yes	10/18/2021 1:53 PM

113	not that i know of.	10/6/2021 8:03 AM
114	I don't know	10/5/2021 6:22 PM
115	not that I know of	10/5/2021 4:11 PM
116	No	10/5/2021 1:20 PM

117

When we don't have an adequate freeze it affects our agriculture. All the perennial crops require a freeze. Also invasive species survive when we don't freeze, and kill off our woodlands.

---

89	Common dissemination of the details submitted to members	10/11/2021 3:10 PM
90	We would want to identify any possible issues (obviously) ; are we working with FEMA? The community needs to be included with the issues, the plans, preventative measures, community involvement, etc. Escape routes would need to be planned; protecting the forests, protecting the water, having another source of water in the event of drought or contamination, educating the public on how they can help and why they should help, new structures should be as environmentally friendly as possible and use sustainable products and use as much natural power as possible (solar and wind, for example); reducing plastic use as much as possible; have a structure Tribal members can go to in the event of loss of power and extreme heat or cold, increase building code standards to include more naturally powered homes and structures, bridges should be built higher in the event of flooding.... those are some ideas	10/8/2021 4:29 PM

## Grand Traverse Band of Ottawa and Chippewa Indians Hazard Mitigation Community Survey

91	Include public health prevention strategies to save lives, increase ventilation/HVAC units in buildings, install redundancies and loop feeds to sustain new technology and underground utilities and generators for long-term sustainability.	10/8/2021 2:31 PM
92	Interesting and culturally relevant and attractive informative videos on the GTB website. create an interest in learning about the causes and prevention strategies that individuals can participate in.	10/8/2021 1:48 PM
93	A place to go if power goes out in the middle of the winter	10/8/2021 1:32 PM
94	clean up all the Tribal parks water line to make sure safe for tribal members with easy access	10/8/2021 1:17 PM
95	no	10/6/2021 8:03 AM
96	None	10/5/2021 6:22 PM
97	no	10/5/2021 4:11 PM
98	It is very important to gather the communities input. This will give them a voice, but also raise awareness in the importance of being prepared for adverse events. Also I think every employee (and possibly every interested community member) take the FEMA ICS classes.	10/5/2021 11:18 AM

**Q14 Are you interested in serving on the advisory team or being involved in future public engagement events for the plan update? Please share your contact information so we may include you on future invitations.**
