

APPENDIX C

The following appendix contains information from the County level. The tables depict informational data for industry sectors that outline employers, employees, industry distribution and median wages. The graphs depict trends developed from data extending back to 2005, providing a comprehensive look through 2018. The categories of data within the graphs include population, poverty rate, median income, labor force, households and unemployment. It is important to note that the data doesn't reflect the most recent impacts due to the Covid 19 Pandemic. Future updates to the data will certainly show deviations from the trends and these will be important to include and benchmark.

All data was obtained from the US Census Bureau and the Bureau of Labor Statistics.
